MEMORANDUM FOR: Director of Central Intelligence

SUBJECT: Formation of a Nuclear Intelligence Panel

1. This memorandum contains a recommendation for your approval. The recommendation is contained in paragraph 3.

2. Based on our several discussions on the need for a Nuclear Intelligence Panel, I have prepared a plan for formation of this group which is attached to this memorandum. The general plan is similar to that used for the Space Intelligence Panel and requires a written report after each meeting.

3. I recommend your approval of the plan in order that we can move immediately to establish the Nuclear Intelligence Panel.

ALBERT D. WHEELON
Deputy Director
for
Science and Technology

Attachment:
As Stated

The recommendation in paragraph 3 is approved:

Director of Central Intelligence

Nov 8, 1965

SECRET

The DCI will select an appropriate CIA official who will be responsible for all administrative support to the Panel. This official will, in coordination with the Chairman, prepare an agenda for each meeting and arrange for necessary briefings and background material. Representatives of USIB member agencies may be requested to brief the Panel on subjects within their competence, particularly when there are differences of opinion within the Intelligence Community. Arrangements for non-CIA briefings or participation will be accomplished through the Joint Atomic Energy Intelligence Committee.

III. Membership

Members will be selected from industry, educational institutions, AEC, and the military departments. A member will normally be requested to serve for a period of three years. However, in the initial selection some members will be requested to serve only two years and others for four years so that there will be no complete change over of membership in any one year. Once a continuity pattern has been established no member will be requested to serve more than three years but may be reappointed if desired. Each member will be requested to participate as an individual and none will be considered as a representative of any element of the Intelligence Community or other government agency. In addition to the regular membership a few individuals may be requested to serve on an ad hoc basis by mutual consent of the Panel chairman and the DCI.

Subject to security approval and willingness to serve, the following members are recommended for appointment to the Panel for the periods indicated:

Mr. Louis H. Roddis, Jr., Chairman Pennsylvania Electric Company	4 years
Mr. William Webster New England Electric System	3 years
